COAL BOARD ASSEMBLES STATISTICS

Will Not Visit Mines But Call For Data As It is Required

TWO MEMBERS ARE ABSENT

Representatives of Mine Owners And Miners to Be Called Last.

(By Associated Press.)

Washington, December 31.—After preparing the way for beginning its investigation into the bituminous coal industry, the President's commission today adjourned its sessions.

Rambrant Peale, representing the operators, and John P. White, representing the miners, left for their homes to spend the holidays; but Henry Robinson, representing the public, remained to guide the preliminary work.

The staff of assistants already has begun assembling statistical data for use in the inquiry, but public hearings will not begin until January 12.

Tentatively, the commission has decided not to assemble its facts by the process of calling coal miners and coal operators in person to testify at hearings, and it also has been decided not to visit the principal coal mining centers.

Instead, it will send out formal inquiries to representative coal mining concerns in all of the various districts of the United States asking for cost sheets covering operations.

These will be analyzed with the assistance of the Federal Trade Commission and governmental experts. When this data has all been assembled, the representatives of the miners and the operators in each field will be called in to present their arguments.

FIX DATE FOR SIGNING PROTOCOL

Complications May Prevent Signing Protocol as Planned

DELEGATES LACK POWER

Effort to Be Made to Have Hun Delegates Given Proper Power.

(By Associated Press.)

Paris, December 31.—Although the Supreme Council today fixed January 6 as the date for signing the protocol and exchanging ratifications of the German peace treaty, complications are developing which, it is thought by some persons in council circles, may again cause the postponement of the ceremony of putting the treaty into effect.

It has developed that the German technical delegates, who are here to arrange the multitude of details connected with the plebiscite to be held in territories which must decide whether they desire to be detached from Germany, do not appear to have full power to act.

The signing of the protocol on January 6, therefore, may depend upon whether the Germans can secure those powers immediately in order to complete the arrangements which it is thought ought to precede the exchange of ratifications.

OHIO TEACHERS CLOSE SESSION ON WEDNESDAY

Will Work For Taxation Measure For Relief of Schools

Amendment to School Revenue Bill Suggested.

(By Associated Press.)

Columbus, O., December 31.—The Ohio State Teachers' Association, at the closing session of its three-day meeting here this afternoon, was expected to go on record in favor of the taxation measure for relief of the schools and do everything possible to secure passage of the bill when the legislature reconvenes January 12th.

At suggestion of rural county superintendents an amendment to the school revenue bill will be suggested. The measure in its present form, rural superintendents declare, would penalize centralized school districts and make it impossible for them to secure as much revenues as they are now getting. The bill would limit the levy of districts to three mills with additional levy by vote of 2 mills.

Under the present system aggregate levies for centralized districts may go as high as ten mills.

No action was expected to be taken relative to the tenure of office bill.

TEACHERS ENJOY A HOT DEBATE ON INITIATIVE

(By Associated Press.)

Columbus, O., December 31.—Closing sessions of the Ohio State Teachers' Association were enlivened today by a hot debate between Harry F. Atwood, of Chicago and A. A. Marsellis, Montgomery county superintendent over the initiative and referendum and the recall. Others joined Marsellis in defense of these principles which Atwood attacked. Atwood declared Ohio had ceased to be the mother of presidents since adopting the initiative and referendum which he termed "radicalism."

NEW HEALTH CODE NOW IS EFFECTIVE

Cox Permits Griswold Amendment Measure to Become A Law.

HITS MANDATORY POWERS

Leaves Vital Decisions Open To Local Health Boards

(By Associated Press.)

Columbus, O., December 31.—Governor Cox today permitted the Griswold bill, amending the Hughes Health Code, to become effective today without his signature.

During the day the Governor also will take action on the graduated auto license bill, the ten day period expiring today.

No reason was given by the Governor for not signing the Griswold bill. It was filed with the Secretary of State without comment and became effective at once as the Legislature had enacted it as an emergency measure to take the place of the Hughes Health Code which would have become operative tomorrow.

The Griswold bill is less drastic than the Hughes code and gives more authority to local people in administering the law.

Many of the mandatory clauses are made optional in the Griswold bill. Health districts may employ full or part time health officers and the state will pay half the salary.

The Governor also vetoed the Vildine bill restricting commercial fishing in Sandusky bay.

Detroit, Mich., December 31.—An elaboration of its profit sharing plan, whereby all employees will be enabled to purchase certificates of investment in the company guaranteed to return six percent a year, and a distribution of bonuses that will total between eight and ten million dollars was announced today by the Ford Motor Company.

Approximately 90,000 employees of the Ford Company and other interests of Henry Ford and his son Edsel, it was announced, will be eligible to participate.

In a statement accompanying details of the new policy, it was announced that the two steps outlined constitute "only a beginning," and that "other plans for enlarging the income and increasing the purchasing power of the dollar of our employees are under consideration."

The amount of the bonuses, which will be in addition to the distribution of profits under the original profit sharing plan, will be based on an employee's daily wage and length of service.

They will range from \$50, in the case of a worker in the company's service three months and receiving the minimum wage of \$6 a day, to \$270, in the case of the worker with five years of service and receiving a wage of \$10.80 a day.

Salaried employees receiving more than \$250 a month will participate proportionately on the basis of the length and value of service.

(By Associated Press.)

Columbus, O., December 31.—Application of the Sheriff Street Market and Storage Co., of Cleveland, to the State Utilities Commission to issue a new 12-story building permit, has developed a new angle in the cold storage business which may have a bearing on all sections of the state and result in giving the state authorities more power in handling the high cost of living.

Chairman Watermyer of the utilities commission stated that it is his opinion that the commission has authority to prescribe cold storage rates for the Cleveland company and authorize supervision over it, and that all cold storage companies may be found to be subject to the law.

SOCIAL : PERSONAL MENTION : CLUBS

Washington High School's invincible football squad was highly honored for the fourth time since the season closed when they were tendered a real oyster supper by Mr. Walter Hamilton at his home on East street Tuesday evening at six o'clock.

When the squad had gathered they were summoned to the kitchen where they were told that each person must prepare his own meal. Mr. Hamilton, as chief chef, presided over a barrel of live oysters and with high knives they had been admonished to bring with them the boys opened the shell fish and for the first time some of the guests ate the oysters in the same style that the first oyster fell a martyr to mankind several hundred years ago.

After satisfying their appetites for the raw article the guests passed around a table loaded with all kinds of eatables which were served in cafeteria style. Mr. Hamilton then removed the lid of a large boiler and served the boys with steamed oysters, a most tempting delicacy.

Even as the football team had proved invincible on the gridiron the squad again demonstrated its prowess by completely annihilating piles of the "oats," no matter in what formation the object of attack was served, of especial notice was the tackling of two hundred and fifty most delicious sandwiches prepared under the careful hand of Mrs. Hamilton.

The remainder of the evening was devoted to music and a general discussion of sports. Several selections on the piano by Edwards Hopkins, who was a guest, were much enjoyed, together with victrola music.

Each of the boys extended apprecia-

The Old And The New

The world bids farewell to the year nineteen hundred and nineteen with that same feeling of relief one experiences upon the conclusion, in safety, of a particularly hazardous journey.

The year nineteen hundred and nineteen had to be traveled. It was the straight ahead road—the only road—and, with all its problems and menaces thinking folks, after the close of the world war and the coming of peace, did not enter the year, now behind us, with any lack of appreciation of the dangers that lurked along the way or any failure to realize the difficulty of the problems which must be met and solved, nor did they fail to discern the barriers that changed conditions had erected and which must be removed if progress was to be maintained.

Not all of the great problems which the year brought to us have been solved, but they have all been met and fearlessly grappled with. It was, of course, impossible to conclude the tremendous after-war tasks in one year, but we have accomplished wonders.

There are still enormous tasks and vital problems ahead of us but that which seemed, a year ago, to be lurking dangers has turned out to be but dark shadows vanishing before the advancing hosts of intelligent people marching straight forward throughout the year.

The greatest cause for satisfaction, the greatest gain to be recorded as accomplished in nineteen nineteen is the very evident quieting down of the restless and discontented.

The "nerves" of the people, strung to high pitch by the demand of war, are, very perceptibly, relaxing, the abnormal strain is passing away, the relaxation has begun, the frown is lessening and across the face of the nations the smile of love and charity is smoothing out the hard lines and furrows made by the hatred and the sorrows and burdens of war.

The worst is over, humanity is returning to normal, reason and patience are assuming the mastery over passion and regard for the rights of others, the love of justice is gaining the victory over selfishness and greed.

With humanity again in normal mood, with swords beaten into plow shares, with the war and its horrors behind us, we step across the threshold of the new year with a feeling of confidence that the coming twelve months are to see great developments in every nation and especially here in America. This nation will rise equal to the demand and will play its full part in the great drama of the nations.

The hungry are to be fed, the angry are to be quieted, commerce is to be resumed, order is to be restored, the strong and the intelligent among the nations and peoples of the world are to join together for good instead of arraying themselves for war.

We are going forward during the coming year, not for greed, not for self, but toward the higher and better purposes of life.

Yes, 1920 looks much better, more assuring than 1919 looked when Father Time led that youngster out twelve months ago.

POETRY FOR TODAY

THE GODS

Somewhere in us all abides
Galaxies of gods to whom
With the changing of the tides
Of our feeling—sun or gloom—
We obsecrate make, and offer
Prayer and plea for better things—
Something more within our coffer,
Keener sight with which to see
Beauty as she walks the way
Of our crowded and common day:
Dreams to set our spirits free,
Hopes to bear us from afar
Blade or blossom of the star,
Music, magic, some quaint gift
Of the fairy world that drift
High and low before our eyes.
Somewhere always in our skies
Burn imagined altars which
Glow with fancies rare and rich,
Sweet with incense and above
All that one god and that one
Altar of the ages—Love!

SHE WAS SO WEAK
COULD HARDLY GET
ACROSS THE ROOM

This lady was weak and bad. Was almost a nervous wreck.

TOOK HYPO-COD AND
FEELS GOOD AGAIN

"I was in such a rundown weak and nervous state of health I couldn't do my work—Could hardly walk across the room. Nights I didn't rest and my nerves were so bad the children's playing almost drove me frantic. I had no appetite and was so pale and thin I looked terrible," declared Mrs. Osborn whose address is given below.
"I was taking medicine but it didn't do me any good until finally I started on Earle's Hypo-Cod and I think it is wonderful. I have gained a little color and am stronger and not so nervous and walk around and sit up all day and I've only taken one bottle so far. It is surely quick acting alright and I

recommend Earle's Hypo-Cod to all," continued Mrs. Hazel K. Osborn, 12 Grimes St. Dayton, Ohio.

If weak, and run down and the whole system, blood, digestion, nerves and stomach seem to be down to the drug store to get a bottle of this splendid preparation which so quickly restores folks to vigorous robust health, per statements of users. Read the formula on the bottle.

Earle's Hypo-Cod is sold here by C. S. Haver's and Frank Christopher's drug stores and the leading druggists in all near by towns. Price \$1.25 plus 5c war tax.—Adv.

Service of the Better Kind for
Batteries of all Makes

IS WHAT YOU WILL FIND IF YOU COME TO
OUR SERVICE STATION WITH YOUR
BATTERY TROUBLES

Winter driving is extremely hard on your battery. You use the lights more when the days are short, and the motor starts much harder when the weather is cold. Therefore, you should give careful attention to your battery.

You have reason to doubt your battery's condition. Give up to our station and have it looked after. Or, to play safe, have it looked after anyway. Prompt attention may save you a repair bill, and possibly a new battery cost.

We would also appreciate an opportunity to tell you about the

Cooper Storage Battery

which we offer with the knowledge that it is perfectly designed and built of the very best of materials and carries a liberal guarantee.

Whatever your needs in starting and lighting battery service may be, we assure you prompt, efficient and careful attention. Stop in next time.

NEW YEAR ATTRACTION AT THE WONDERLAND

The Wonderland theatre has booked for its New Year's attraction "The Broken Butterfly," an adaptation of Fenolope Knapp's novel "Marcene," which attracted wide spread attention. It is the masterpiece of a great dramatist, presented by Maurice Tourneur as a Robertson-Cole special.

The settings are sumptuous the photography superlative and the cast far above the average, Pauline Starke and May Aldon giving Lew Cody, as the hero, excellent support.

The story is gripping and handled in a masterly manner. It is the story of a young and delicate fibered child of nature—a waif of the Canada woods, who, stolen as a child from her noble parents by a revengeful governor, becomes the victim of a cruel jest of fate through an unfortunate love affair with a brilliant but thoughtless young composer.

NO QUARANTINE FOR FOUR MONTHS

Health Officer John Byron announced Wednesday noon that not a single case of quarantine had existed in Washington during the last four months—a thing which has not occurred for a period of many years.

For the first eight months of this year upward of 150 cases of small pox were quarantined within the city, and some three dozen cases of scarlet fever.

HOSPITAL NOTES

Master Robert Lansing underwent a minor operation at the Hodgson Hospital Wednesday morning.
Mr. Abraham Milner of Leesburg has entered the Cherry Hill Hospital for special treatment.

A baby before it is christened is an anonymous contribution.

WILL OPEN WELL DRILLED FOR OIL

An old well, originally driven for gas or oil, located at the Evans Veneer plant on Sycamore street, is to be reopened within a few days with a view to using it to furnish water.

It has been more than thirty years since the attempt to find gas was made, and the attempt at that time was a complete failure, although the pipe was driven into the earth more than 2000 feet. In order to keep any water from coming up that might be in the well a large plug was driven in the pipe many feet from the surface.

Now the plug is to be drilled out and the water used. There is however some little gas in the well. By holding the hand over the end of the pipe for a few seconds and then putting a match to it a slight explosion will result.

C. E. TRACK MEET

The Christian Endeavor Society of the Presbyterian Church will hold a noteworthy indoor track meet in the basement of the church Saturday night, January 3, at 7:30 o'clock. It is hoped that the world famous athletes will be present to participate in the events. An exciting evening is promised.

INNOCENT MAN YEAR IN PRISON GIRL CONFESSES

Columbus, O., December 30.—John Watkins, of Sherrodsville, is a prisoner in the penitentiary though innocent. About a year ago, his fourteen year old daughter, Della accused him of attacking her. The father was convicted in the Carroll County courts and sentenced to from one to ten years.

Warden Thomas now has in his possession a sworn confession from the girl saying she accused her father to protect a young man. "I accused father after my life had been threatened," the girl said.

A. E. McKee, member of the State Board of Clemency, say the board has taken action to get a pardon for Watkins. The case is now before Governor Cox for decision.

WOULD CHANGE CLASSIFICATION OF WOOD ALCOHOL

By Associated Press
Washington, December 30.—Legislation subjecting the manufacture and sale of wood alcohol to the same restrictions as grain alcohol will be recommended to congress as result of the many fatalities from the use of wood alcohol as a beverage, Commissioner Roper of the Bureau of Internal Revenue announced tonight. The form of the proposed legislation has not been decided definitely by the bureau.

TWO TRUCKMEN ARE ARRESTED

SCHOOL TEACHER IN CHILLICOTHE PRAISES DRECO

Mrs. Louise Marie Wilson writes strong letter for publication telling what the great remedy has done for her.

Suffered pains over her kidneys constantly; only easy while lying on her back but now is strong and well.

Mrs. Louise Marie Wilson, of 272 South Paint St., Chillicothe, Ohio, a well known and highly esteemed teacher in the public schools, writes the following letter, which should be of interest to every sick and suffering person in this vicinity. She says: "I have suffered for forty years from

kidney trouble caused by falling backwards into a cellar eight feet deep, which bruised and tore loose one of my kidneys which never healed. I suffered continually with pains in my back and hips, especially when on my feet, the only ease I ever had was while lying on my back. I have taken a great many remedies trying to overcome my troubles but without success. "Upon reading the statements as to what Dreco had done I began trying it, and it is remarkable what Dreco has done for me. I am entirely free from pain over my kidneys; my whole system has been strengthened and I feel better than in many years. I will be glad to tell any one more about this grand medicine, Dreco."

Dreco is a safe, sure, harmless remedy made from Nature's roots, herbs, barks and leaves, which encourages a the bowels, builds vitality, acts on the digestive organs and rouses a sluggish liver to complete action.

All good druggists now sell Dreco and it is highly recommended in Washington C. H. by Frank Christopher.—Adv.

Jesco Automobile Oil Flows Well in Cold Weather

You car owners who have been insuring your cars against everything else but the disasters that follow faulty Winter lubrication, insure it against the evils of frozen oil by using nothing but JESCO AUTOMOBILE OIL.

You do not have to be an engineer to realize that a cake of frozen oil in the crank case means certain mechanical disaster to your car. Of course, after a time, the generated heat will thaw out the frozen oil, but the damage may then be done.

To make sure you are reasonably safe from such occurrence, and to promote smooth action of the motor and prolong its life, fill your crank case EVERY TIME with Jesco Automobile Oil, at our Filling Station.

OHIO ONCE MORE LEADS NATION

Columbus, Ohio—(Special)—Ohio

Ohio again showed its heels to the nation in the 1919 War Saving Stamp race. The end of the year found the Buckeye state far in the lead of other states in the sale of government savings securities. Ohio also won first honors in 1918 and already War Savings officials here are setting out to lead the field again in 1920. Toward that end Ohio postmasters during January will attempt to sell \$3,000,000 worth of savings securities.

Ohio's 1919 sales were twice that of its closest competitor—New York State. Ohio was third with Pennsylvania fourth. Ohioans have purchased more than \$130,000,000 worth of War Saving Stamps. This means a sale of \$26 for every one of the 5,000,000 people of the state.

NEW BANKING HOURS START ON JANUARY 2

The new hours will have a tendency to create greater banking activities during the fore noon rather than after the noon hour. Each of the five banks of the city will observe the new hours.

Why Is A Headache

Various Causes for this Common Affliction.

Anemia or Bloodlessness a Very Common Cause.

Pepto-Mangan Overcomes Anemia and Tends to Prevent Headaches.

When one has an occasional headache it is usually due to some transient or passing cause, such as indigestion, eye-strain, over-tiredness, etc. When, however, one suffers from frequent periodic headaches there is always some special reason for it. Among the most common of such reasons is Anemia or Bloodlessness. This condition is especially frequent among girls and young women and those whose occupations or habits of life keep them too much indoors. The one important necessity in such cases is to build up the quantity and quality of the weak and watery blood. Gude's Pepto-Mangan is exceptionally valuable for this purpose. It increases the number and improves the quality of the red blood cells, those vital little bodies which carry nutrition to all parts of the body. It improves the appetite, imports color to the face, and restores health and strength to the body generally. After a short course of Pepto-Mangan the headaches decrease in frequency and severity, and finally disappear, if they are due to Anemia. Pepto-Mangan may be had either in liquid or tablet form, as preferred. When buying Pepto-Mangan be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan.—Advt.
